uVue™
HSG/SHG CATHETER

The uVue™ provides, in one piece, the combined stiffness of a catheter and integrated sheath. With its malleable inner support stylet, uVue helps physicians achieve greater control with one-handed placement.

It is the first catheter of its kind to feature a balloon, inner stylet and integrated sheath in one product. Additionally, the uVue can be used to perform both hysterosalpingography (HSG) and sonohysterography (SHG) procedures.

- Malleable internal stylet is easily formed to any desired curve.
- Integrated sheath adds rigidity to aid in placement.
- Catheter design makes it possible to use with one hand.
- 3 mL syringe included.

Order Number	Reference Part Number	Catheter Fr	Catheter Length cm	Balloon Volume mL
G24813	J-UHSG-062026	6.2	26	1.5

Not all part numbers shown on this product information sheet may be approved for sale in all regulatory jurisdictions. Consult with your local Cook representative or customer service center for details.
