

HAMILTON-T1

US Military customized package

The US Military tested the HAMILTON-T1 according to the highest demands under the toughest conditions. After successfully passing the following tests, the HAMILTON-T1 was awarded the NATO stock number NSN 6515-01-648-5814.

- ✓ High and low temperatures
- ✓ High humidity
- ✓ Acceleration and crash
- ✓ Rain, dust and sand
- ✓ Rapid compression
- ✓ High altitudes

This allows all US Military branches to order the US Military customized HAMILTON-T1 package.
